

HOW TO USE THIS TEMPLATE:

Introduction

The template reflects the steps set out in the PRINCE2 Method and is designed to prompt the Project Manager and help in the creation of the End Project Report. There is also a Product Description for the End Project Report at Appendix A of the PRINCE2 Manual.

Loading the file

This template has been produced using Microsoft Word 2003. To use it, load up the file directly from the directory and starting from page 1 follow the prompts (in [...] brackets).

Deleting the [...] text

When the template is complete, the End Project Report can be printed and approved.

Prior to printing, you should delete all [...] prompt text.

Saving the End Project Report under its own name

Save the End Project Report by selecting the "SAVE-AS" command; this will avoid overwriting the standard template. You must specify your own Project Directory.

Once your End Project Report is complete check the document against the following Quality Criteria:

- Any abnormal situations are described, together with their impact
- At the end of the project, all Issues should either be closed or be the subject of a follow-on action recommendation
- Any available useful documentation or evidence should accompany the follow-on action recommendation(s)
- Any appointed Project Assurance roles should agree with the report
